

RUNOVERS ARE PREVENTABLE

FACT: Runovers by agricultural equipment, primarily tractors, account for one in four deaths and one in eight hospitalizations of work related farm injuries.

BE WATCHFUL FOR CO-WORKERS AND USE HAND SIGNALS TO COMMUNICATE.

FACT: Almost half (44%) of child fatalities on the farm are caused by runovers.

MAKE A FENCED-IN PLAY AREA FOR CHILDREN.

FACT: Vibrations from an idling tractor can slip the transmission into gear and cause a runover.

TURN OFF THE IGNITION BEFORE DISMOUNTING.

FARM SAFETY MEANS FARM SAFELY!
